MEMORANDUM FOR: Chief of Support Services Staff

SUBJECT : Records Management

Bob:

The Director of Personnel has recommended that the following suggestion be passed along to the Records Management Board. He points out that a good many of the records which can be disposed of because they are no longer needed officially or in an operational sense might be valuable to the historical people. He suggests that the Records Management Board close the circuit with the Historical Staff to ensure there are no irretrievable losses.

Mr. Bannerman requests that each of the Directorate representatives on the Board explore this matter fully before the purge of records at the Records Center. Will you please let us know the response to this suggestion.
